<b>GSSW Student Stipends</b> Graduate School of Social Work Scholarship Fund (60034030)	GSSW (Carly Einstein/ MaryBeth Lawson)	<p>Advance Equity in Education through Paid Field Placements by donating on 1Day4DU. The Graduate School of Social Work (GSSW) partners with more than 750 local agencies and organizations across Colorado and nationwide, where MSW students hone their social work skills in real-world practice settings. Students benefit from the work experience and close supervision that help them grow as professional social workers; community partners benefit from the added capacity MSW interns provide — especially in settings such as behavioral health, where there aren't enough providers to meet the demand.</p> <p>But, unpaid internships aren't equitable and can be a barrier to an MSW education at a time when social workers are more needed than ever. In fact, the burden of unpaid internships falls disproportionately on lower income students who must work while attending their MSW program and on students of color, who bear higher levels of student debt than their white peers. GSSW has partnered with the local Payment for Placements (P4P) chapter to financially support students in need while they pursue their required internships. Your gift today will reduce educational barriers and build capacity in the organizations where students intern, helping students and communities to thrive.</p>

Internships are a vital holistic part of the Korbel graduate curriculum that allow students to explore potential career paths, broaden their professional skills, and succeed in today's job market. Many of the most impactful opportunities

		<p>are with organizations with limited resources that hinder their ability to pay interns what is needed to live and work in their region. Your donation will directly support the continued build-out of the Pride Closet, a free resource for LGBTQ+ students to access hygiene, casual clothes, and gender affirming clothes.
